## FOREWORD

Last year the State Library published a bibliography of state and local documents held at the Library. This is a supplement to that list, representing all state and local documents received since December 18, 1971.

This past year the State Library has set up a number of exchange agreements with other State Libraries to receive their state publications. This fact accounts for the substantial increase in out-of-state documents currently at the Montana State Library. In addition, gaps in the Montana documents were filled through the generosity of the University of Montana Library, Montana Historical Society Library, Montana State University Library, and the various state agencies who provided duplicate documents from their collections.

Due to executive reorganization, some agencies have been combined with others and some now cease to exist; however, many agencies still retain their identity as divisions of a more inclusive agency. The changes are still in progress and we anticipate that there will be more in the future. Therefore, it has been difficult to authoritatively determine the correct name of the issuing agency. Older publications were placed in the list under the most current name of the agency or division responsible for its publications, regardless of the former agency name.

The listing is divided into two parts: Part A, Montana publications, and Part B, Documents from other states, municipal and regional governmental agencies. The index is CUMULATIVE.

Special thanks go to my predecessor, G. Wesley Burnett, who organized the documents collection at the State Library, Molly Herrin of the State Library staff, and Peggy Palmer, typist.

Harold L. Chambers, Documents Librarian

David R. Hoffman, State Librarian
